## *What's The Answer?*

- *When To Have Kids?*
- *What Do Kids Say About Dad?*
- *When Was Penicillin Discovered?*

The Answers To These And Many Other Questions Are Inside.

A Free, Friendly, Fun Monthly Newsletter From Your Friends At **auto world WEST LOOP**

### *Honor Thy father*

Fathers play a special, irreplaceable role in people's lives. Let them know that. On June 18th, skip the tie and tell your dad what he means to you from the bottom of your heart. Some suggestions:

- ❖ **Write a letter thanking your father for all he's done and all he means to you.** Read it in front of him and the whole family. You can frame it and even add photos or other mementos.
- ❖ **Create a thank-you book.** Buy a small book of blank pages. On each page, write why you're thankful for him. Example: "Thanks, Dad, for all the help you provided on my algebra homework when I was a kid." Send it around to your other siblings and have them contribute the reasons they're grateful.
- ❖ **Create a review of your father's life.** Get family members and old friends to write down their memories of your father. Then write a script incorporating all the stories and present it to him.

### *The Best Men In Our Lives, Our Fathers*

"He opened the jar of pickles when no one else could. He was the only one in the house who wasn't afraid to go into the basement by himself. He cut himself shaving, but no one kissed it or got excited about it. It was understood when it rained, he got the car and brought it around to the door. When anyone was sick, he went out to get the prescription filled. He took lots of pictures, but he was never in them."

-Erma Bombeck

### *June Events*

June 1 <sup>st</sup>	Hurricane Season Begins
June 14 <sup>th</sup>	National Flag Day
June 21 <sup>st</sup>	Father's Day
June 21 <sup>st</sup>	Summer Begins
June 24 <sup>th</sup>	National Ask Day
June 7-13 <sup>th</sup>	National Pet Appreciation Week
June 1-30 <sup>th</sup>	Children Awareness Month
June 1 – July 31	Fireworks Safety Months

### *Kids & What They Say About Dad*

"When your dad is mad and asks you, 'Do I look stupid?' don't answer him."  
-Heather, age 16

"Remember, you're never too old to hold your father's hand."  
-Molly, age 11

### *When to Have Kids?*

Balancing children and career growth is a question of timing. Forbes Woman and TheBump.com asked 2,210 women online what they thought the ideal age is to start a family and maintain a career. A little over three-quarters of the women had children or were expecting kids, and about half were working mothers already.

The answer: 76 percent of the respondents said that the ideal age range is 25-34 years old. But challenges remain: 62 percent indicated that motherhood typically has a negative impact on a woman's career, while 23 percent said children have no affect either way. Just 16 percent said the effect was positive.

### *Enjoy Your Vacation without Gaining Weight*

Curves for Women, a national health club, offers these tips on how to enjoy your vacation without gaining weight:

- Plan to eat your largest meals at breakfast or lunch so you will have much of the day to work off the calories.
- Keep on the move and incorporate physical activities into your trip.
- Pack healthy snacks.
- Eat every four or five hours to keep your blood sugar on an even keel and hunger pangs at bay.

**June** is vacation month and a good month to be car care aware. A driver's worst nightmare, especially in heavy traffic, is brake failure. It's one of the more common causes of accidents, yet it is predictable and preventable. Learn the early warning signs of brake trouble, such as a squealing or scraping sound, soft pedal action or pulling to one side.

## Help Wanted, Male

**POSITION:** Father (also known as Daddy, Dad, Pop)

**JOB DESCRIPTION:** Long-term, team players needed, for challenging permanent work in an often chaotic environment. Candidate must possess excellent communication and organizational skills and be willing to work variable hours, which will include evenings and weekends and frequent 24-hour shifts on call. Some overnight travel required.

**LENGTH OF JOB:** The rest of your life.

**POSSIBILITY FOR ADVANCEMENT & PROMOTION:** None.

**PREVIOUS EXPERIENCE:** None required (unfortunately). On-the-job training mandatory.

**BENEFITS:** No health or dental insurance, no pension, no tuition reimbursement, no paid holidays. Available benefits include lifelong opportunities for personal growth, unconditional love, and occasional hugs.

## Statements You'll Never Hear Your Father Say

In honor of Father's Day, here's a list of things you're never likely to hear coming from your dad's lips:

- "I'm lost . . . so I guess I'll stop and ask for directions."
- "All your friends have a very sarcastic attitude—I like that."
- "Here's my credit card and the keys to my new car. Have fun."
- "What do you want to get a job for? I make plenty of money for you to spend."
- "Your mom and I are going away for the weekend. You might want to have some friends over and throw a party."
- "Father's Day? Don't worry about that, it's no big deal to me."

## Driven to Distraction

A young man received his first driver's license. To celebrate, he offered to take his father out for a drive. In the garage he opened the front door on the passenger's side, but his father jumped into the back seat.

"Tired of sitting in the front seat after all these years, Dad?" asked the son.

"No," said the father. "I just want to see what it's like to sit back here and kick the driver's seat over and over."

## The Story Behind the Story of Penicillin

Everyone knows that the Scottish scientist Alexander Fleming discovered penicillin in some moldy bread in his laboratory at St. Mary's Hospital in London. Penicillin was one of the first antibiotics discovered and is still one of the most widely used to combat bacterial infection. Although the story of Fleming's discovery is true, he wasn't the first to observe the beneficial effects of penicillin, which is derived from the *Penicillium* fungi commonly found in mold.

Bread with blue mold growing on it was used to treat infected wounds during the middle ages—Arabian stable masters, for example, used it to cure sores on horses. In 1896, a French medical student named Ernest Duchesne submitted a paper on penicillin's healing properties to the Institut Pasteur, but his findings were ignored because of his youth. A Costa Rican doctor, Clodomiro Picado Twight, reported similar observations on the effects of the *Penicillium* fungi in treating infections, but his discovery won little attention.

On Sept. 28, 1928, Fleming noticed blue-green mold growing on a plate of *Staphylococcus* bacteria that had accidentally been left open. The mold produced a halo of inhibited bacterial growth, from which Fleming concluded that the mold contained a substance that resisted the bacteria.

It wasn't until the 1940s, though, that the active ingredient in *Penicillium* was identified and doctors began using it to treat infections.

## Thanks For The Kind Words

"No one likes to go to repair shops much less a dealerships for car repairs. Honestly, I hate going but we have to. But I found a good repair shop who won't bill you for every little thing and will fix your vehicle. Auto World is good to me and my car, Ruby. Auto World is convenient, fast and efficient. Staff is very helpful, accommodating, nice and cool. AW is my mechanic for life!!!" Monica

## For The Month of June Referrals, Referrals, Referrals
